Si-82 PACK 2 CENTRIFUGAL PUMP

Durable pump

The Si-82 pump is designed to be easily installed whatever the layout of the premises.

Strong, the Si-82 tolerates charged, high temperature and acidic condensates (pH>2.5) produced by gas condensing boilers. Capable of evacuating up to 500 l/h, the Si-82 pump is suitable for air conditioning units and industrial refrigeration displays.

BENEFITS

• High performance

- Can discharge condensates up to 5m

- Up to 500 I/h, for shorter running time
 - Low sound level quiet operation

• Installation in any place

Pump can be floor mounted, attached on a wall or hanging from a ceiling.

• Versatile

Easily removable tank and reversible pump, to allow mounting rather on the left or on the right of the application and choosing the side of the water exit.

• Easy electrical connection

Plug-in power cord to facilitate installation and maintenance.

Easy hydraulic connection

- Quarter turn easily removable check valve, designed to facilitate \emptyset int. 10 mm (3/8") hose plug in. - 4 inlet holes \emptyset 30 mm (1" $^{3}/_{16}$)

• High resistance

- Oil and acid resistant float
- Mechanical structure resistant to shocks
